

Project Design  
Phase-I Solution  
Architecture

Team iD	PNT2022TMID48285
Project Name	industrial Specific Fire Management System
Maximum Marks	4 Marks

### Solution Architecture:

Key Factors to Consider in Fire Alarm System Design

Code Compliance is a Given — But is it Enough? ...

Better Fire Safety. ...

Fewer False Alarms. ...

Ease of Maintenance and Longevity of the System. ...

Scalability to Accommodate Future Changes in Use and Occupancy. ...

Ability to Use the System for Other Types of Emergency Communications.
